## AMENDMENTS TO THE SPECIFICATION:

Please amend the specification as follows:

Please amend the paragraph beginning at page 29, line 7 of the substitution specification as follows:

The first shadow model 252A is (0, 0, 0, [[0]] $\underline{1}$), and only the area of shadow is set while the model itself has no color. The first gradation table 260A is (0, 0, 0, $\alpha_1$), and $\alpha_1$ can have the value of 0~1 depending on the quantity of light from floodlight 250A. The second shadow model 252B is (0, 0, 0, [[0]] $\underline{1}$), and only the area of shadow is set while the model itself has no color. The second gradation table 2160B is (0, 0, $\alpha_2$), and $\alpha_2$ can take the value of 0~1 depending on the quantity of light from floodlight 250B.
